ABOUT ME

Becoming a self-taught web developer has made me a stronger learner who can pick up new tools and languages quickly and utilize them effectively. I'm excited to enter the field full-time and to connect with other developers who I can learn from and be inspired by to make applications that have a lasting impact on their users.

SKILLS

React	React-Bootstrap	MongoDB
React Hooks	API	Express
HTML5/CSS3	Git/GitHub	NodeJS
JavaScript	VSCode	Redux

PROJECTS

Kudoboard (Clone)

React, React-Bootstrap, HTML/CSS, JavaScript, React-Router, EmailJS

Celebrate your friends and family by creating a Kudoboard and making posts with GIFs, photos, and personal messages! This app uses dynamic React-Router pages to let a user create and add to their own board, and utilizes EmailJS to deliver the board to its recipient. A clone of [Kudoboard](#) with additional CRUD functionality.

[Demo](#) | [Code](#)

Pokédex

React, React-Bootstrap, HTML/CSS, JavaScript, React-Router, API

This Pokédex uses the [PokéAPI](#) to help you learn more about each Pokémon, including its type(s), weaknesses, abilities, and more. View a paginated list of Pokémon or search for a specific Pokemon.

[Demo](#) | [Code](#)

Game Garage (E-Commerce)

React, MongoDB, Express, NodeJS, Redux, HTML/CSS, JavaScript, React-Bootstrap

Game Garage is a MERN e-commerce app that sells some of my favorite video games from over the years. Select a game to read its description and available platforms. This app uses a MongoDB database, Express and NodeJS, and a React frontend.

EXPERIENCE

New Student Programs Coordinator

Office of New Student & Family Programs, Temple University (July 2018 – November 2020)

- Facilitated New Student Orientation for over 5,300 new first-year students and roughly 800 transfer students
- Supervised the Owl Team, Temple University's team of 32 Orientation Leaders and 4 Student Coordinators
- Coordinated recruitment and selection processes of the Owl Team, including marketing, individual interviews, and group interviews
- Led development and implementation of Owl Team training, consisting of a development course, three retreats, and a 1.5-week summer training period
- Co-supervised and mentored 2 NODA interns, graduate assistants who support the facilitation of New Student Orientation
- Assessed the effectiveness of New Student Orientation, Transfer Student Orientation, Owl Team training, and transfer student programming
- Developed and maintained partnerships with key university stakeholders (e.g., University Housing, Dining Services, Disability Services, etc.)
